PROFESSIONAL SUMMARY

Entry-level Linux administrator building hands-on experience in a dedicated Debian virtual lab environment (VirtualBox), with foundational knowledge of SSH, user and permission management, package management and system services. Strong automation skills in Python and growing Shell/Bash scripting, plus cloud fundamentals (AWS: EC2, S3, IAM, VPC, RDS) studied toward the AWS Cloud Practitioner certification. Backed by 5+ years of enterprise operations discipline, high-volume support, process rigor and clear communication with global teams. Available immediately for junior sysadmin, cloud support and NOC-style roles.

CORE SKILLS

Linux & System Administration: Debian administration, SSH, user and group management, file permissions, system services, package management (APT), Shell/Bash scripting (in progress)

Virtualization: VirtualBox, VM lifecycle, snapshots, Guest Additions, shared folders

Networking: TCP/IP fundamentals, NAT, DNS, SSH connectivity, ports and diagnostics (via lab environment)

Containers & Deployment: Docker, Docker Compose, Nginx (roadmap), CI/CD workflows (GitHub Actions, GitLab CI)

Cloud (studying): AWS fundamentals — EC2, S3, IAM, VPC, RDS, ECS/Fargate, Route 53, CloudFront, monitoring and security services

Automation: Python scripting, cron concepts, REST APIs, data processing (Pandas)

PROFESSIONAL EXPERIENCE

Senior Campaign Specialist & Production Support

Catalina Marketing — Costa Rica | Nov 2023 – Dec 2025

- Provided high-volume operational support and risk assessment for enterprise production workflows with zero critical errors.
- Served in a volunteer operations group handling platform-wide requests and organizational workflows.
- Automated validation and data integrity checks using Python and structured verification methods.

QA Automation & Data Operations

Cheetah Digital — Costa Rica | Sep 2021 – Oct 2023

- Managed monthly deployment schedules, large datasets and platform configurations with 100% accuracy.
- Coordinated with technical and management stakeholders across the US, Europe, Asia and Brazil.
- Ensured data governance and security compliance for sensitive systems.

Data Operations & Campaign Specialist

Experian — Costa Rica | Oct 2019 – Aug 2020

- Supported secure data import/export pipelines and API integration monitoring for Fortune 500 accounts (Disney, Starbucks, The New York Times).

PROJECTS & PORTFOLIO

Linux DevOps Labs — Debian virtual server administration

- Configured and maintain a Debian 13 lab environment in VirtualBox: SSH server, Guest Additions, shared folder, baseline snapshots.
- Following a 45-lab curriculum: users/permissions, systemd services, package management, firewalls (UFW), Nginx, Docker deployment and monitoring.

CI/CD Pipeline Labs — container deployment

- Operated Docker Compose deployment stacks with Watchtower auto-updates and restart policies.

AWS Cloud Practitioner self-study

- Studying core AWS services and concepts: EC2, S3, IAM, VPC, RDS, ECS/Fargate, Route 53, CloudFront, security (GuardDuty, Inspector, Shield, WAF) and disaster recovery (RTO/RPO).

EDUCATION & CERTIFICATIONS

- DevOps Engineering Program — EducacionIT (in progress, expected 2027): cloud architecture, CI/CD patterns, software engineering lifecycle.
- Advanced AI-Assisted Engineering & Spec-Driven Development (SDD) — Big School: technical blueprint design, token-efficient architecture, AI tooling.
- Backend Architecture with FastAPI — specialized training (4 hrs): RESTful API routing, async logic, Pydantic validation.
- Relational Databases & SQL Design — intensive course (20 hrs): normalization, complex queries, data integrity.
- Advanced Python & Desktop Applications — independent study (80+ hrs): OOP, data validation, Tkinter GUI development.
- Database Analysis — Platzi (2020) · Web Development School — Platzi (2021).
- Technical Degree in Web Design — Universidad Fidélitas (2014).

LANGUAGES

Spanish: Native · English: Advanced / Full professional proficiency (daily cross-continental collaboration with US, EU and LATAM teams)
