PROFESSIONAL SUMMARY

Quality assurance professional with 5+ years validating high-volume enterprise systems for Fortune 500 brands (Disney, Wells Fargo, The New York Times, Starbucks), with a proven record of zero critical delivery errors. Expert in test case design, manual and automated validation, data mapping and process optimization — including a QA framework that reduced review time by 25%. Actively expanding into software quality engineering with Python (pytest) and CI/CD quality gates. Available immediately.

CORE SKILLS

QA & Testing: test case design, functional and regression validation, manual + automated testing, test coverage, defect prevention, deployment acceptance checks

Automation: pytest, Python scripting for data validation, automated validation frameworks

Data Quality: data mapping, data integrity checks, normalization, API validation

Tools: Git, GitHub, GitLab, CI/CD quality gates, Salesforce, WordPress, Excel (advanced)

Process: QA frameworks, process optimization, risk assessment, documentation, mentoring

PROFESSIONAL EXPERIENCE

Senior Campaign Specialist & QA Validation

Catalina Marketing — Costa Rica | Nov 2023 – Dec 2025

- Executed rigorous QA validation for high-volume digital campaigns, maintaining zero critical delivery errors and top-tier quality scores.
- Assessed operational and configuration risk during campaign setup and process improvements; promoted ahead of schedule.
- Mentored peers facing quality challenges, elevating team-wide accuracy metrics.

Email Marketing Senior CQE (Quality Engineering)

Cheetah Digital — Costa Rica | Sep 2021 – Oct 2023

- Led multi-regional QA testing and validation for large-scale email campaigns using manual and automated methodologies.
- Designed and implemented a complete QA framework that reduced campaign review time by 25%.
- Coordinated monthly deployment validation: datasets, filters, segmentation logic and platform configurations with 100% accuracy.
- Ensured data governance and security compliance for sensitive client databases.

Email Marketing Specialist / QA Support

Experian — Costa Rica | Oct 2019 – Aug 2020

- Supported QA and validation processes for enterprise accounts (Disney, Starbucks, The New York Times): campaign testing, data mapping and API integration checks.
- Maintained rigorous quality standards through structured QA processes in high-velocity delivery environments.

PROJECTS & PORTFOLIO

API-Learning-Lab — pytest + CI quality gates | [github.com/ericksuper8000-source/api-learning-lab](#)

- Building automated test suites (pytest) and CI quality gates (lint, formatting, tests) for a FastAPI application, mirroring professional quality-engineering practice.

CI/CD Pipeline Labs — quality gates in CI

- Configured lint and test stages in GitHub Actions and GitLab CI that block broken builds before image publication.

WhatsApp Finance Assistant — test automation

- 48 automated pytest tests covering webhook validation, data extraction and error handling, with mocked external services.

EDUCATION & CERTIFICATIONS

- DevOps Engineering Program — EducacionIT (in progress, expected 2027): cloud architecture, CI/CD patterns, software engineering lifecycle.
- Advanced AI-Assisted Engineering & Spec-Driven Development (SDD) — Big School: technical blueprint design, token-efficient architecture, AI tooling.
- Backend Architecture with FastAPI — specialized training (4 hrs): RESTful API routing, async logic, Pydantic validation.
- Relational Databases & SQL Design — intensive course (20 hrs): normalization, complex queries, data integrity.
- Advanced Python & Desktop Applications — independent study (80+ hrs): OOP, data validation, Tkinter GUI development.
- Database Analysis — Platzi (2020) · Web Development School — Platzi (2021).
- Technical Degree in Web Design — Universidad Fidélitas (2014).
